## Helpful Tips!

Work in a lint and dust free environment to avoid unwanted inclusions in your coating.

Be careful to avoid shaking the tube of Glamour Glaze or bubbles will form.

The papers used in this kit are called Chiyogami papers and are designed and printed in Japan.

Should bubbles form in the Glamour Glaze, use a paper towel edge and a toothpick to remove them.

Glamour Glaze is not waterproof. Please avoid contact with water when wearing your finished pieces.

If you are in a hot or humid climate, you can coat the surface of the dry Glamour Glaze with clear varnish to avoid the surface from becoming "tacky".

Thank you for purchasing the Create Your Own Scrabble Tile Pendant kit!

This is a fun craft project that results in beautiful and wearable artistic jewelry.

I hope you enjoy making these as much as I do!

Included:

- 10 Scrabble Tiles
- 10 Silver Plated Bails, small
- 10 Ball Chains
- 1 Glamour Glaze
- Decorative paper assortment

**Step 1:** Open a tube of Glamour Glaze and apply a small amount to the unlettered side of the Scrabble tile. Spread evenly and adhere the decorative paper to it decorative side facing up.

**Step 2:** Flatten the paper gently and thoroughly to the wood tile. Be sure the paper is flat on the tile and no air remains between the tile and the paper. Let dry.

**Step 3:** Once dry, trim excess paper from around the wood using a craft blade or scissors. Apply a thin coat of the Glamour Glaze to the decorative paper. Too much Glamour Glaze will result in an uneven surface. If you want a thicker coating of glaze, apply a second coating after the first coating has dried.

**Step 4:** Once the Glamour Glaze has dried (time varies, but overnight should do it in most environments), use a drop of Glamour Glaze to adhere the bail to the back of the Scrabble tile. Allow to dry before wearing.
